South Carolina Public Service Commission

Dear Public Service Commission,

North Carolina is my beautiful home and I want it to stay that way. Duke needs to quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support! I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians. I want to be proud of my state for its innovation and responsibility.

Sincerely,

Meagan Adkins
